Finding Mr. Smith

Your team must organise itself to solve clues and complete tasks in order to find Mr Smith, who is carrying a USB stick with secret company information.

This is a fast-paced activity set out-and-about in your local area. Unless teams communicate and work together, Mr Smith will get away, so critical skills are quickly learned and reinforced.

Finding Mr Smith is an easy, accessible and fun way to build the essential business skills your teams need to succeed.
