REDROCK International

Bridges

Teams design and build a stable bridge, then one member from each team must cross it safely.

Teams build a series of bridges to a specialist's standard. To succeed, a member of every team must cross every bridge safely.

Duration	Setting	Participants
1–2 hours	**Indoor or outdoor**	**30–250**

How it works

1

Split into sub-teams

The group divides into sub-teams, each responsible for building one bridge.

2

Follow the plans

Teams build closely to the instructions, using the right equipment for each part.

3

Quality check

Our Bridges Specialist checks every bridge against the quality specifications.

4

The crossing

A member of each team crosses every bridge safely to complete the challenge.

What Bridges develops in your team

In every Red Rock team build

- Teamwork and collaboration
- Relationships and trust
- Communication

Bridges also develops

Problem solving
Teams test, spot weak points and strengthen the bridge as they go.

Ownership and accountability
Each team is responsible for a bridge that someone has to cross safely.

Cross-department working
A member of every team must cross every bridge, so all teams have to succeed.

Trainer-led review

Bridges ends with a review led by our trainers. We agree the focus with you beforehand and build the review around it.

Teams talk through what happened, link it to how they work together day to day, and agree what they will do differently back at work.

We can also organise

- Venue
- Catering
- Travel
- Branding
- Giveaways
