REDROCK International

Colour Conqueror

A competitive team build with hands-on challenges, a live app and trainer-led reviews.

3 hours
Standard session

12
Challenges

20–600
Participants

Red Rock is trusted by 900+ organisations

Qatar Airways · QNB · ooredoo · QatarEnergy LNG · Shell · Qatar Foundation

How it works

01

Teams

We split participants into random teams, often with colleagues they may not know well, and give each team a colour.

02

Challenges

Timed challenges are set up around the venue. Teams move between them and compete to set the fastest time on each one.

03

Zones

Each challenge is within a zone. The team with the fastest time wins that zone and keeps it until another team beats their time.

04

The app

Every time is logged in our app. A live leaderboard shows which team is leading in each zone.

05

Reviews

There are two phases. After phase one, our trainers lead a short regroup where teams plan how to improve for phase two.

06

The winner

After phase two, we conduct a short review. The team holding the most zones then wins the trophy.

Trainer-led reviews

Colour Conqueror is a learning experience as well as a competition. Our trainers lead reviews during the team build, focused on what you want your team to develop.
